

P3855

P3854

Premium Drivers Gloves

Premium general-purpose work gloves provide reliable protection against cuts and abrasion where welding gloves are not required. The drivers-style gloves (P3855 and P3854) offer straightforward, durable protection combined with all-day comfort. For more demanding environments, the W2000 Driver style glove delivers good protection with a comfortable glove fit

The P3855 drivers glove features full-grain cowhide leather for enhanced durability, along with a cold-weather lining for added warmth with extra patch of cow split leather patch across palm. The P3854 drivers glove is made from unlined Cow grain, providing an excellent balance of hand protection, comfort, dexterity, and durability. The back of hand features a open-mesh breathable material with a Neoprene Knuckle-protection.

Key features

Drivers-style options available

Gathered cuffs help keep gloves securely in position

Optimised materials and designs for a broad range of applications

Not suitable for welding applications
